

ENTRELACS

THE BEAUTY OF RAW MATERIALS

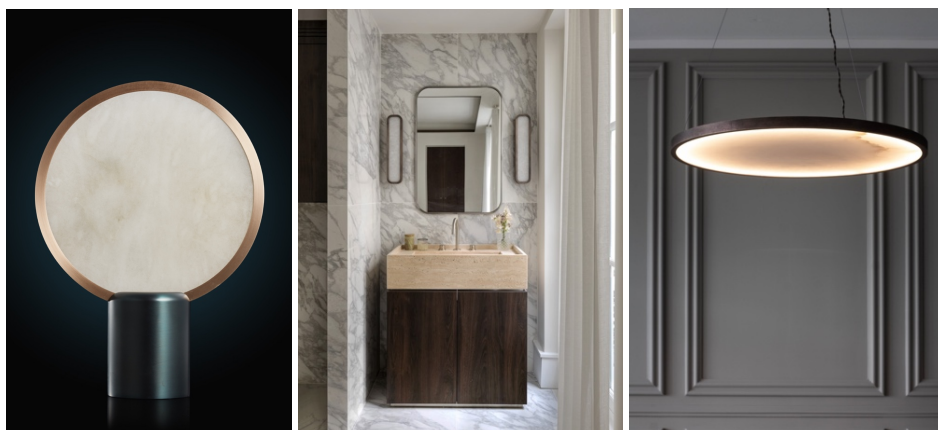

ENTRELACS, is a Bronze & Alabaster light collection hand-made in France, In launching ENTRELACS, Yves and Paul accomplished something that few have dared to attempt: to design, craft and produce lights dedicated to celebrating bronze craftsmanship

BRINGING OUT THE ESSENCE OF BRONZE

Their taste for clean, simple and delicate lines, reflecting materials as faithfully as possible, reveals the substance and soul of bronze to create pieces that are both modern and timeless.

Since March 2021, the collection is now UL listed and wired for the Northern American market.
